The Origin of the Nickel Coin

The US five-cent coin, colloquially known as the nickel, has a rich history dating back to the mid-19th century. It was introduced to replace the half-dime, which was made of silver. The original design featured a shield on the obverse and a wreath on the reverse. The term "nickel" itself derives from the nickel metal used in the coin's composition.

In 1866, the Liberty Head design was introduced, and over the subsequent decades, multiple design changes emerged, including the famous Buffalo Nickel (1913-1938) and the Jefferson Nickel (1938-present). The "William" moniker is less common but may relate to specific commemorative or special edition nickels bearing engravings or themes associated with William.
